*minimum  
wedding budget:  
\$2,500*

*These prices give you a general idea of our pricing structure. Flower varieties and amount used in each arrangement are the determining factor for quoted prices. Each wedding is unique and we will draft a proposal that fits your needs and budget. This is not a comprehensive list of what we can do...if what you want isn't listed, we can probably do it—just ask!*

**FLOWERS** are one of the main elements that bring “life” to your wedding photos. Make sure the florist you pick has a style you love because you’ll be seeing those pictures for years and years! We would not recommend booking the cheapest photographer and florist you can find...there are other ways to save money while planning a wedding! If you have small budget, we can help you figure things out! We have items you can rent for a reasonable fee instead of buying them. If you have family and friends that are willing and handy, they can pick up your order and set things up, DIY a few things, etc. We love to provide buckets of fresh flowers that you can use as needed to get a lot of bang for your buck! You can also re-purpose ceremony items for reception decor...scatter bud vases with single stems mixed with candles...with a little creativity you can still have a wedding that you’ll look back on years later and still love!

When you think about your flowers, think about impact: Maybe a few high impact statement pieces, versus more pieces with less impact. Think about the size of the venue and the feeling you want to convey. Don't be afraid to embrace color—while muted palettes and greens and whites are classic and safe choices, nothing makes photos pop like colorful flowers that complement your color scheme!

*Why are flowers “so expensive”? You're not just buying the flowers...You are compensating your florist for work that is intensive, beginning with designing a proposal, pricing and sourcing the best possible flowers and hard goods, picking up orders, foraging for certain flowers or foliage, prepping flowers, removing thorns and foliage, conditioning the flowers, prepping containers, designing, packing, transporting flowers, delivery and setup, scrubbing buckets, cleaning vases, cleaning and sanitizing work spaces, along with the usual overhead that comes with running a business.*

**OUR PASSION** is working with brides to turn their unique vision for their big day into reality! We pour our hearts into every last detail! We source local flowers whenever possible, to ensure the freshest, most spectacular blooms for our clients. We order premium flowers and hard goods—if something doesn't look great, we won't use it! We specialize in events, choosing to put more time and effort into our pieces and designs than the average retail florist. We have loved flowers our entire lifetime and it has been a *dream come true* to provide florals for many a beautiful bride on the most important day of her life. *It would be our pleasure to work with you!*
